

## SHINE LIKE A STAR THIS SUMMER

- with a *Touch Of Cosmetics* –

Call in the cosmetic cavalry and give lack-lustre faces a lift this summer with a *Touch of Cosmetics*, a clever line-up of make-up designed to reveal your natural beauty. With a strong celebrity following including *Dannii Minogue*, *Delta Goodrem*, *Kim Cattrell*, *Daryl Hannah*, *Susie Amy* and *Tamzin Outhwaite* this multi-talented, easy-to-use, long-lasting collection comes housed in sleek, silver tubes that'll look good in any make-up or beach bag.

### **Touch Of Light - £10**

No girl should be without this A-list gem by her side. Used by *Danni Minogue*, *Kate Bosworth* and *Kim Catrall*, this multi-purpose highlighter is so versatile it can enhance even the duller complexion day or night. *Kate's* flawless complexion can be mimicked by using the reflective properties and 'light magnification' of **Touch of Light** to reduce the appearance of blemishes. In addition, the tiny light reflective particles increase luminosity making fine lines and dark areas of the skin seem to disappear. *Dannii's* amazing cheekbones can be replicated by adding **Touch of Light** to the top of the bones to make them look more prominent. Use over make-up or without any make-up at all – it just needs light to activate its reflective properties.

Give cheekbones, brows, noses and collarbones a sexy, touched-by-the-sun glow with the very wearable **Touch Of Blush**. Housed in an air-tight silver tube this versatile make-up buddy comes complete with a handy applicator brush for sweeping the super-fine powders onto the skin.

### **Touch Of Lip - £10**
